

Two precious lives.
Two beating hearts.
Two people worth
protecting.
Why can't we
love them both?

The mystery of life. Mother and child. Both of their lives are precious. Both are deserving of our love and protection. We, the undersigned, mourn not only for the loss of 40 million unborn children - but also for their mothers, who have been wounded by the abortion industry.

Please stand with us in love on behalf of them all.
